- Received positive evaluations from 85% of students; invited to return for a second Summer
- Served underprivileged youth from SFUSD's most under-resourced and diverse campuses

#### **Independent Tutor**

**Multiple Locations**

**June 2019 – Present**

- Provided ongoing one-on-one tutoring across STEM subjects and English/reading comprehension to elementary, middle, high school, and college-level students over 5+ years
- Supported test prep for standardized exams including SAT, ACT, and state assessments
- Developed customized lesson plans tailored to individual student needs and learning styles
- Supported college students in introductory and upper-division Physics coursework
- Maintained long-term client relationships with repeat families across Austin, New York, San Francisco, and San Antonio

#### **Columbia University Astrophysics Laboratory**

**New York, NY**

*Student Researcher*

**May 2025 – Jan 2026**

- Conducted preliminary research assessing baryonic correction models (BCM) applied to cosmological simulations
- Adapted and debugged existing scientific Python workflows for IllustrisTNG simulation analysis across local and high-performance computing environments
- Awarded Columbia's RISE Scholarship to conduct research over the Summer of 2025

#### **The Bridge Golf Foundation**

**New York, NY**

*STEM Tutor*

**Aug 2024 – Sep 2025**

- Delivered in-person and virtual tutoring sessions after school to prepare underserved NYC youth for standardized testing including Regents subject exams and college readiness exams SAT and ACT.
- Provided one-on-one instruction across Physics, Chemistry, Calculus, Algebra I & II, Pre-Calculus, and Geometry.
- Authored daily reports for the program director documenting student attendance, academic progress, and behavior across all tutoring sessions

#### **College Connected**

**Austin, TX**

*Partner, Lead Mentor*

**Aug 2023 – Jan 2025**

- Joined as a founding team member of a collegiate advisory startup; designed year-based program tracks for high school students and community college transfer applicants
- Trained and led a team of ~10 mentors to deliver hands-on college counseling to students and parents
- Worked with 15+ student-parent pairs on a weekly basis to develop and execute individualized college roadmaps
- Built lead generation infrastructure using Instagram ad campaigns, growing the client pipeline from launch

#### **Austin Community College District**

**Austin, TX**

*Student Technology Advocate*

**Sep 2023 – Jan 2024**

- Produced and recorded video tutorials on essential ACC platforms (Blackboard, Panopto, etc.) and their functions accessible to the full student body
- Identified gaps in student digital literacy, pitched solutions to management and delivered solutions via an in-person lecture series.

#### **Dell Technologies**

**Austin, TX**

*AI Marketing Intern*

**Jun 2023 – Aug 2023**

- Researched and benchmarked emerging AI writing tools (Claude, ChatGPT, LLaMa) for long-form marketing content production
- Advocated internally for air-gapped, enterprise-hosted AI deployments to protect proprietary data
- Presented findings and recommendations to unit leaders, VPs and executives

#### **Google Fiber via Nelson Connects**

**Austin, TX**

*Sales Representative*

**Dec 2022 – Jun 2023**

- Canvassed ~100 doors per day in Austin's Summer heat, conducting direct door-to-door residential sales for Google Fiber
- Averaged approximately one new subscriber per day, consistently met or exceeded weekly quota targets
- Developed resilience and strong cold-outreach communication skills in a high-volume, performance-driven environment

#### **REI CO-OP**

**Austin, TX**

*Retail Sales Associate*

**Oct 2022 – Jan 2023**

- Advised customers on outdoor gear selection across climbing, camping, and hiking categories using an extensive personal experience

|                                                                                                                                                                                                                                                                                                                                                                       |                                               |

## HONORS & AWARDS

- Dean's List, Columbia University (Spring 2024, Summer 2024)
- OSF Scholarship Recipient (2024–2025)
- Prof. Lloyd Mertz Scholarship Recipient (2025–2026)
- STAR Scholar, Columbia University (Summer 2024)
- RISE Scholarship Award Recipient, Columbia University (Summer 2025)
- ACC Honors Scholar
- Scholastic Excellence Award, Austin Community College

- 
- PTK Honors Society Bronze Member
  - USA Climbing Collegiate National Championship Qualifier (2026)
  - 4th Place, USA Climbing Collegiate Northeastern CNQE Men's Top Rope (2026)

## PROJECTS

---

Résumé Forge | React, TypeScript, Supabase, Claude API, Vercel

May 2026 - Present

- Built and shipped a full-stack résumé and application app through iterative prompting across multiple LLMs.
- Defined the product: one reusable accomplishment bank that generates tailored résumés instead of a folder of near-duplicate documents.
- Directed the AI-assisted build across three Git branches: specified features, diagnosed failures, prompted fixes, reviewed results, and decided what shipped.
- Specified human-review controls for adjustable honesty, editable recommendations, per-bullet keep/remove, original-text recovery, and undo.
- Specified and tested an application tracker with six statuses, saved résumé/cover-letter/JD snapshots, list and Kanban views, and JSON backup and restore.
- Manually tested CV parsing, job matching, reordering, PDF/DOCX export, application tracking, and generated voice and factual accuracy.

Car Repair | Hand & Power Tools

2015 - Present

- 2017 Mazda CX-5
  - Fuse replacement
- 2007 Toyota Corolla
  - Front knuckle assembly replacement
  - Wheel bearing replacement
  - Disc brake pads replacement
- 2012 Hyundai Accent
  - Control arm replacement
  - Oil change
  - Wiper replacements
- 1972 Chevrolet Camaro
  - Carburetor rebuild
  - Sway bar replacement
  - Disc brake replacement

3D Printer Inventory & Repair | Electronics, Soldering, 3D Printing

Jun 2026 - Present

- Inventorying and documenting a six-printer repair lot; completed initial network and print-function testing on one QIDI printer.

WiiFit Balance Board Force Plate Concept | Electronics

May 2026 - Present

- Conceptualized a low-cost force-plate adaptation using a WiiFit Balance Board for possible use in JCYC STEM instruction.

Process Notebook | Next.js, React, TypeScript, Supabase

Jan 2026 - Present

- Built an advanced pilot-stage full-stack learning app through iterative prompting across multiple LLMs.
- Defined core workflows: PDF and stylus input, process replay, teacher feedback, export, and preservation of student reasoning and revisions.
- Iteratively described errors, prompted fixes, reviewed results, and refined the interface and workflow design.
- Wrote roadmaps, workflows, acceptance criteria, and scope boundaries; directed AI-assisted development across 63 commits and 10 tagged milestones.
- Manually tested student and teacher workflows across replay, screenshots, and PDF exports; caught rendering inconsistencies and an unapplied database migration.
- Defined responsible-AI guardrails: teacher-triggered recognition, transparent AI logs, and no automatic grading, ranking, or misconduct scoring; the build passes 300 Vitest tests, linting, type checks, and production builds.

## ADDITIONAL INFORMATION

---

**Skills:** Intermediate Spanish, Native English, Hand & Power Tools

**Computer:** Excel, Word, Google Docs, Sheets, Python, ChatGPT, Claude, Linux Terminal

**Certifications:** Wilderness First Responder (WFR), CPR/First Aid, OSHA 30, CDSS Child Abuse & Neglect Mandated Reporter

**Interests:** Rock Climbing, Backpacking, Robotics & Hardware Systems, Art History
